

Wetaskiwin is *working* AGRICULTURE

-  **BUSINESS NAME:** Wetaskiwin Co-op Agro
-  **OWNERS:** Co-operatively Owned by over 15,000 Members
-  **NUMBER OF YEARS IN BUSINESS:** 100

Wetaskiwin is an agriculture hub for our surrounding rural community and the City is ready to support these farms with a wide variety of local businesses. We are proud to be one of many who has the opportunity to work with producers whose operations are as diverse as the people themselves. Within 100km we range from ideal sand for potatoes, to excellent range land for cattle and everything in-between. We are situated on top of some of the best soil in the country with direct access to global markets (CP Rail & International Airport) just outside of urban sprawl. Farmers here are rooted deep, with many century farms and farming families who are passing on their legacy for generations, and we have been fortunate to have worked with their great grandfather, grandfather, father and son. We believe in the business of agriculture, our community sees the value in it, and our farming community is always looking for ways to innovate and improve. It is a dynamic and exciting industry to be a part of and Wetaskiwin is a great place to for an agriculture business to thrive.

From the beginning, Wetaskiwin Co-operative Association's history is proudly member-owned and community minded. For 100 years, Wetaskiwin Co-op Agro has functioned within the community acting as supply store, business network and community hub. Since our first fertilizer delivery by our reliable golden mare in 1917 to our custom chemical blending facility, we continue to be a cornerstone to the Wetaskiwin and area agricultural community and will continue to expand and grow to serve our members and customers. In March 2017, the merger of Wetaskiwin Co-op Agro Team with Parkland Fertilizers has created an agricultural power house, Wetaskiwin Co-op Agro with new grow it, fuel it, and equip it teams. Our equip team is ready to assist you with trusted advice, technology and industry-leading support for all your grain storage and handling solutions. Our grow it team is comprised of agrologists, certified crop advisors and other experience specialists who work together for our farmers and are ready to assist with field scouting, soil testing and crop nutrition recommendations. And to make the farm run, our fuel it team is ready to handle all your lubricant and bulk petroleum needs both in the field and for the family. Wetaskiwin Co-op Agro, now located at the Parkland Fertilizer' location, is ready to serve our agricultural community both in business and in sponsorships with groups valuing the future of agriculture in our community such as 4H.

Wetaskiwin Co-op Agro is one division of the Wetaskiwin Co-op Association which includes: Country Junction Feeds, Food Store, Wetaskiwin Cardlock, Home Centre, Project Centre, Falun Cardlock, Falun Co-op and Liquor Store.
