-  **BUSINESS NAME:** TDC Rig Manufacturing Ltd
-  **OWNERS:** Danny Krueger
-  **NUMBER OF YEARS IN BUSINESS:** 12
-  **NUMBER OF EMPLOYEES:** 5-6 full time

TDC Rig Manufacturing is a custom welding and fabrication shop that specializes in drilling rig components, pipe line buildings, oilfield skids and steel fabrication. Their skilled and motivated team offers a quick response to business inquiries, and delivers superior product on time at a competitive price.

After years of chasing rigs with a portable welder, Danny received a call to build a rig. Deciding he had the tools and abilities to do so, Danny started TDC Rig Manufacturing in 2005. In 2015, he expanded his operations by building a 16,000 sq. ft. shop in Wetaskiwin due, in part, to the competitive industrial land prices compared to other locations like Nisku and Acheson, as well as a shorter drive to work.

Wetaskiwin is Working for TDC Rig Manufacturing.
